Patient Counseling Document on Extended-Release / Long-Acting Opioid Analgesics

Patient

Name:

The <u>DOs</u> and <u>DON'Ts</u> of Extended-Release / Long - Acting Opioid Analgesics

DO:

- Read the Medication Guide
- Take your medicine exactly as prescribed
- Store your medicine away from children and in a safe place
- Flush unused medicine down the toilet
- Call your healthcare provider for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

Call 911 or your local emergency service right away if:

- You take too much medicine
- You have trouble breathing, or shortness of breath
- A child has taken this medicine

Talk to your healthcare provider:

- If the dose you are taking does not control your pain
- About any side effects you may be having
- About all the medicines you take, including over-thecounter medicines, vitamins, and dietary supplements

DON'T:

- Do not give your medicine to others
- Do not take medicine unless it was prescribed for you
- **Do not** stop taking your medicine without talking to your healthcare provider
- Do not break, chew, crush, dissolve, or inject your medicine. If you cannot swallow your medicine whole, talk to your healthcare provider.
- **Do not** drink alcohol while taking this medicine

For additional information on your medicine go to: dailymed.nlm.nih.gov
